Annexure 3 – Tuition Fees Policy

Introduction

Dr Vishwanath Karad MIT World Peace University, Pune (MIT-WPU) is committed to a fair and transparent policy with respect to the fees and charges it expects from its existing and incoming students. The university has an obligation to safeguard public funds and ensure that it delivers the assured value for money to its students and other beneficiaries. The Tuition Fee Policy forms part of the university's Terms and Conditions and should be read in conjunction with them, for together they provide the comprehensive framework for the setting, payment, collection, and reconciliation of tuition fees.

Course fees include all compulsory elements needed for students to meet the minimum learning outcomes of the course. In some courses, optional additional costs may be incurred.

The purpose of this policy is to set out the tuition fee liability that applies to students upon enrolment on a course/programme of study.

Scope

This policy relates to:

> ➢ Student tuition fee liability

This policy does not relate to:

> ➢ Non-refundable tuition fee deposits
> ➢ Accommodation fees

Policy

➤ All students bear a personal liability for the tuition fee associated with any course/programme of study for which they enrol.

➤ All students must enrol for each successive year or another relevant part of their course/courses at MIT World Peace University no later than 30 days after the stating date of the respective course/courses).

  o Upon non-completion of enrolment by/before the prescribed deadline dates, students will be withdrawn from their ongoing course. Once withdrawn, the students' ID card will be deactivated following which they will not be able to attend lectures, use the library, submit, or sit for assessments or take part in any other academic activity.

➤ The University has a 'fixed fee' policy for tuition fee meaning that the fee charged at the beginning of the programme remains the same throughout that particular programme.

➤ The 'fixed fee' policy will apply even if a student interrupts or repeats another year of study.

➤ It is the students' responsibility to ensure that they will be able to pay for their entire course duration prior to enrolment.

➤ Enrolment will not be permitted unless any/all outstanding debt(s) from the previous year has been paid in full or an instalment plan has been agreed upon by the university's Fee Team.

➤ **IMPORTANT: Students are legally responsible for payment of their complete tuition fee themselves, whether they have an SLC loan or a sponsor. If the sponsor does not pay the university, or if the students find out that they are not eligible for a SLC loan, or they lose**

their eligibility for an SLC loan at any time after the commencement of the course, the students will be liable to pay their own fees for any/all periods of study that is not paid for by a sponsor or the SLC. This applies to all forms of undergraduate and postgraduate fee.

➤ Students who are considering discontinuing their programme of study are encouraged to first consult with the University for Advice and Guidance before making the final decision to leave. Further information on the range of support available can be found on the university website.

➤ In all cases, wherein a student withdraws from or discontinues their studies, or is granted a period of leave of absence from their studies, the date of withdrawal/discontinuation/leave of absence is accounted for by the university towards calculating the cumulative tuition fee liability.

➤ For students who are sponsored, in the event of the sponsor not making payment in respect of the tuition fees, the student will be personally liable for the payment.

➤ Students funded by the Student Loans Company (SLC) will be liable for payment of either 50% or 100% of the tuition fee loan, in line with SLC policy in case of discontinuation mid-programme. For undergraduate students starting in August, the liability will stand at 50% in case the withdrawal takes place before course commencement & remaining 50% will be liable after completion of 90 days from the course commencement date.

➤ The university reserves the right to take appropriate action against students who fail to pay their fees, or make satisfactory arrangements to pay on, or by the end of a set period after the starting date of their course.

When to pay fees:

Students either can make the full payment or can opt for the payment in instalments as per the fee payment schedule declared and published by the university.

First Installment Fee will have to be paid in full for the seat to be confirmed in candidate's name (no partial payments are permitted).

How to pay fees:

The University is committed to offering a simplified payment experience, which is both secure and safe. For all fees including Tuition fee, Hostel fee and other fees should be the paid via ERP System (either through Demand Draft or through Payment gateways of PAYTM, PAYU and CC Avenue or NEFT/ RTGS/ IMPS through a unique virtual account).

Education Loan:

The University has collaborated with the following banks for education loans:

- State Bank of India (SBI)
- Bank of India
- HDFC Bank Ltd
- Axis Bank Ltd

Failure to pay fees:

If any portion of the fee remains unpaid, the following measures will be in effect against the defaulters:

- All access to academic ERP and examination platform will be restricted with immediate effect
- No access to the Teaching-Learning process. (Academic suspension)
- Loss of attendance and formative assessment. No retroactive benefits.
- No access to examinations for filling for Term end examination.
- Loss of Term end examination opportunity
- No access to placement, convocation, or any such other on or off campus university activity
- Admission status will be cancelled

Penalties for Late payment:

Student type	Days after Due Date	Late fee
All Students (First Year, Lateral entry and Second year onwards)	1 - 30	₹ 250/- per day
	30 - 60	No access to academics No consideration of CCA and attendance

	More than 60 days	Admission cancellation Re-admission in the next Academic Year after paying full fee

Seeking Extension for Payment of Fee

Students/Parents can seek an extension of the due date for payment of fee in lieu of genuine and valid reasons including financial hardship due to medical emergency in the family and death of an earning family member. In such or similar scenarios, the student/parent must submit an application along with requisite supporting documents minimum 30 days prior to the scheduled due date.

- The Deans of respective Schools are authorised to recommend the extension of the due date up to 30 days with or without levy of late fee (partial or full) to the committee comprising of The Registrar, The CAFO, and Dean-Student Affairs.

- If any student/parent, seeks extension for due date up to 60 days then such applications must be forwarded with recommendations of Dean/ Pro Vice Chancellor to the committee comprising of The Registrar, The CAFO, Dean-Student Affairs for extension of due date with or without levy of late fee on a case-to-case basis subject to careful review of the submitted application.

- Under no circumstances will an extension for payment of fees be granted beyond 60 days or after the commencement of term 2, or whichever is earlier.

Seeking Withdrawal / Refund

The tables below set out a summary of the policy that the University will apply when calculating tuition fee liability for self-funded / sponsored students who withdraw or discontinue their studies, or who take a period of leave of absence from their studies at the University:

Students invoiced on a course/programme basis:

Cancellation/Withdrawal Description	Refund Calculation Procedure
1. Withdrawal requests received before the commencement of the programme	The entire academic fee after deducting the processing fee of ₹1000/- will be refunded

2. Withdrawal requests received within 10 days after the commencement of classes	The entire academic fee after deducting 10% will be refunded
3. Withdrawal requests received after 10 days and within 20 days from the commencement of classes	The entire academic fee after deducting 20% will be refunded
4. Withdrawal requests received after 20 days and within 30 days from the commencement of classes	The entire academic fee after deducting 50% will be refunded.
5. Withdrawal Requests received after 30 days	No refund of any academic fee

Only under exceptional circumstances will the university consider reducing a student's tuition fee liability or refund a portion of tuition fee already paid.

- Students can apply for a request of reduction or refund applicable under the "Tuition Fee Liability Reduction or Refund Application Procedure", and applications will be honoured on their individual merit.

- The University offers students the opportunity to pay tuition fee in equal instalments via an agreed payment plan. Students who withdraw, discontinue, or take a period of leave of absence are required to honour their agreed payment plan until their remaining tuition fee balance is cleared.

- If it is determined that a student has over-paid tuition fees to the University, or if a refund is approved, any refund amount will be first offset against any debt the student has to the University (e.g., Accommodation, Library etc.) before processing any refund.

Annexure 4 – Eligibility & Selection Process

- MIT-WPU retains the right to make changes to any published schedule.
- Any other eligibility and selection criterion declared from time to time by the appropriate authority, as defined under the Act, may be added during the duration of the Admissions process.
- In case Class 12th/HSC Results are declared post the provisional admission, submission of proof of eligibility documents remains sole responsibility of the candidate before classes commence.
