BUILD YOUR LEGACY HERE.

Message from the Mentor of RSoL

I am immensely pleased to learn that MIT-WPU Pune, has decided to set up a School of Leadership under its Faculty of Business and Leadership, named after me as 'Ramcharan School of Leadership.'

The challenge for a leader in today's volatile world differs from that of a manager. Though management is all about getting things done through others, a leader must go the extra mile by running three core processes, including picking other leaders, setting strategic direction, and conducting operations. It is high time that organisations must identify their potential leaders and groom them for future challenges.

What separates a strong and fast-moving company is its ability to detect and pounce on opportunities so that even in a downturn they can snap up assets at bargain prices and snatch market share out from under their competitors. Leaders with such acumen can only excel in the coming period.

The Ramcharan School of Leadership (RSoL) aims at building the pipeline of future leaders. I am sure The Ramcharan School of Leadership (RSoL) will transform the leadership training landscape in India through innovative, relevant, and meaningful curriculum and pedagogy.

The school brings national and global thought leaders to deliver a well-designed curriculum and ignite the minds who are capable and willing to take the company and nation to the next level. Leadership is all about hope and success. The sky takes on shades of orange during sunrise and sunset, the colour that gives you hope that the sun will set only to rise again.

The Ramcharan School of Leadership (RSoL) is all about building that hope, and developing leaders for the future who will build value for all the stakeholders.

Dr. Ram Charan

Global Adviser and School Mentor

RAMCHARAN SCHOOL OF LEADERSHIP (RSoL)

Developing Leaders for a Changing World

Ramcharan School of Leadership (RSoL) at MIT World Peace University, Pune, is dedicated to developing the next generation of business and corporate leaders. The School offers a comprehensive range of leadership-focused programmes for aspiring students and experienced professionals alike, designed to address the evolving demands of modern organisations and societies.

At its core, The Ramcharan School of Leadership (RSoL) is committed to shaping ethical, capable, and future-ready leaders through academically rigorous and industry-relevant learning pathways. Designed by leading industry experts and thought leaders, its flagship programme architecture integrates leadership development, strategic thinking, governance, communication, and team building with experiential learning, global exposure, and real-world application—fostering personal transformation, professional growth, and leadership with clarity, integrity, and long-term impact.

TRANSFORM YOUR VISION

From the Desk of the Dean RSOL

Dear Students and Esteemed Parents,
It gives me immense pleasure to welcome you to the **Ramcharan School of Leadership at MIT World Peace University, Pune.**

Inspired by the legacy of **Dr. Ram Charan**, a globally respected advisor and leadership mentor, our school is built on the belief that institutions must continually nurture leaders who evolve, adapt, and uplift others.

At RSOL, we go beyond teaching management—we shape mindsets. Our mission is to prepare students not only for professional success but also for meaningful impact in an increasingly complex and dynamic world. Through a curriculum developed with leading academics and industry experts, we foster critical thinking, ethical leadership, and global perspectives.

As part of MIT-WPU's multidisciplinary ecosystem, students engage in experiential learning that extends beyond the classroom. Guided by the spirit of Swami Vivekananda's philosophy, we strive to nurture leaders with clarity of thought, integrity, and purpose.

POST GRADUATE DIPLOMA IN MANAGEMENT (PGDM)

Transform Your Career in One Year.

Ramcharan School of Leadership's (RSoL) Post Graduate Diploma in Management (PGDM) is a one-year, full-time programme for graduates seeking a strong, accelerated grounding in management and leadership. It is accredited at NCrF Level 6 and is guided by a vision to build value-driven and tech-enabled leaders through globally immersive experiential learning. It blends core managerial learning with leadership development to support rapid career growth or a global academic pathway.

The programme is strengthened by structured academic practices such as Collaborative Academic Dialogues (CAD), Curriculum Alignment & Teaching Strategy (CATS) and defined learning goals, ensuring clarity, quality and industry relevance. Student-faculty platforms like Open House and Synergy Circle foster transparency and engagement, while initiatives like Future Fridays keep the academic environment dynamic and forward-focused.

Programme Duration:
1 Year

Programme Structure:
Two Semesters

Total Credits:
44

Mode:
On-campus | Modular | Global

Global MBA Option:
Advance to a one-year Global MBA through international collaboration, awarded by a reputed European university

PROGRAMME DIFFERENTIATORS

Designed for the World You Will Lead.

Global Collaborative Teaching Model

A modular teaching approach with international faculty and senior corporate experts, with one course each semester, ensuring strong contemporary industry relevance.

Harvard ManageMentor Courses

Structured learning through Harvard ManageMentor, strengthening managerial capability-building alongside the PGD curriculum.

Leadership Lab Across Both Semesters

A dedicated Leadership Lab runs across both semesters to ensure continuous leadership development alongside academic learning.

Industry-Integrated Capstone Research Project

The programme concludes with an industry-integrated Capstone Research Project, enabling applied problem-solving and industry-linked research.

AI-based Leadership Curriculum + Applied Tools Exposure

Artificial intelligence is integrated into learning, decision-making, and career planning, supported by exposure to tools such as:

Python | R | Tableau | Power BI | SAP | ERP Systems

Rural Immersion and Life Transformation Programme

A distinctive immersion experience designed to strengthen values-based leadership, reflection, and holistic development.

Global Immersion Programme

2–3 week immersion delivered in collaboration with leading global partner universities, offering global exposure, cross-cultural learning, and international certifications.

Global MBA Pathway

Exclusive opportunity to progress to a one-year Global MBA, allowing students to extend their leadership and management education through reputed international universities.

Experiential Learning & Case-Based Pedagogy

Grounded in real-world business contexts and a practice-oriented learning approach through real business cases, industry analysis, mini projects, simulations, and role-plays.

Curriculum Benchmarking with IIMs and Global Institutions

The curriculum is mapped with IIMs and other global institutions of excellence to align with the best one-year executive and PGD programmes.

Exclusive Mentorship and Thought Leadership from Dr. Ram Charan

The programme is anchored in direct mentorship and thought leadership inspired by Dr. Ram Charan's global work in leadership, strategy, and organisational transformation.

Course to be Taught - Leadership in the Era of Economic Uncertainty

Global Immersion

Microsoft Singapore visit during Global Immersion Program at National University of Singapore (NUS), Singapore in February 2026.

ACADEMIC STRUCTURE

That Builds Capability

Semester I

Foundations of Management & Leadership

- Core management disciplines
- Leadership Lab for self-awareness and communication
- AI-enabled business learning
- Case-based discussions and simulations
- Preparation for global immersion

Courses include Organisational Behaviour, Managerial Economics, Management Accounting, Marketing Management, Operations Management, Business Statistics for Decision Making, Digital Technologies for Business Leaders, Financial Reporting and Analysis, Communication Skills for Business Leaders, Scientific Studies of Mind, Matter, Spirit and Consciousness, Leadership Lab, and Yoga.

Semester II

Strategic Integration & Application

- Strategy, corporate finance, and electives
- Advanced leadership decision-making
- Internship-based learning
- Industry-linked assignments
- Capstone Research Project

Courses include Strategic Management & Corporate Governance, Corporate Finance, Logistics & Supply Chain Management, Marketing Management II, Business Research Methods, Human Resource Management, a Global Immersion module, Major Specialisation Electives, Leadership Lab, Harvard ManageMentor Courses, Life Transformation Programme & Rural Immersion, and Peace-Building Global Initiatives.

Capstone & Applied Learning

- Work on real organisational challenges
- Integrate strategy, analytics, finance, and leadership
- Deliver solutions with measurable impact

Learning Outcomes

- Strong functional and strategic management capabilities
- Leadership competence supported by continuous lab-based development
- Ability to apply analytics, AI tools, and ERP systems in managerial contexts
- Experience in handling real-world business problems through projects and research
- A global and ethical perspective on leadership and decision-making

Pedagogy & Learning Approach

The programme follows a modular, case-based, and experiential pedagogy that promotes active learning and real-world application through discussions, simulations, role plays, teamwork, and reflective practice. Learning is supported by a hybrid-enabled model that combines immersive on-campus engagement with curated global digital resources, ensuring depth, flexibility, and continuity.

Leadership & Technology Integration

Leadership development is continuous through psychometric assessments, mentoring, and values-based reflection. Students gain exposure to modern-day tools and platforms, including Python, R, Tableau, Power BI, SAP, and ERP systems, with AI integrated into learning, decision-making, and career planning.

Programme Outcomes

You emerge as a globally competent, industry-ready, and ethically grounded business leader, enabling you to:

- Apply strong functional management knowledge across key business domains.
- Demonstrate effective leadership, decision-making, and ethical judgement.
- Solve complex business problems using consulting-oriented and analytical approaches.
- Integrate strategy, finance, operations, and people management in real-world contexts.
- Operate confidently in global and multicultural business environments.
- Leverage industry exposure and networks for accelerated career progression.
- Engage in lifelong learning and continued executive development pathways.

Leadership Lab

The Leadership Lab was established under the visionary leadership of Dr. Rahul V. Karad, Executive President, MIT-WPU, Pune, whose commitment to transformative academic experiences continues to inspire the University's initiatives. Conceptualised and successfully coordinated under the leadership of Dr. Urvashi Makkar, Dean of the Ramcharan School of Leadership (RSoL), the Leadership Lab serves as an experiential learning platform designed to foster leadership competencies through CXO-level interactions, immersive learning, and reflective practices. This initiative perfectly embodies MIT-WPU's mission to nurture ethical, capable, and socially responsible leaders ready to navigate the complexities of a dynamic global environment.

“Leadership cannot be added later. It must be built from day one.”

Careers today don't move in straight lines. They accelerate, pivot, and globalise faster than ever before. The PGD in Management is designed for individuals who want to:

- Build **strong management foundations**
- Develop **real leadership capability**
- Gain **global exposure**
- Move faster into **high-impact roles**
