AND COMMERCE**

WPU School of Economics and Commerce

Online Faculty Development Programme (FDP)

Hands-on Workshop on SPSS for Research Applications

19–22 August 2026 | Online | 5:00 PM – 7:00 PM

About the Programme

The School of Economics & Commerce (SoEC), MIT-WPU is organising a 4-day Online Faculty Development Programme designed to provide hands-on training in IBM SPSS for quantitative research applications.

The workshop focuses on the complete research data analysis workflow, including:

- Data preparation and cleaning
- Descriptive and exploratory analysis
- Inferential statistical testing
- Regression modelling
- Interpretation of SPSS outputs
- Reporting results for research papers, dissertations, and project reports

The programme adopts a practical learning approach with live demonstrations, guided exercises, and real datasets, enabling participants from academia and industry to confidently apply statistical techniques in their research work.

Workshop Schedule

Date	Topic
19 August 2026	Getting Started with IBM SPSS – From Data to Analysis
20 August 2026	Exploratory Data Analysis & Data Visualisation
21 August 2026	Inferential Statistics using SPSS – Selecting & Performing Appropriate Tests
22 August 2026	Regression Analysis, Interpretation & Reporting Results

Facilitators

Dr. Sandhya Sreekumar
Assistant Professor,
Department of Economics
& Public Policy
