School of Computer Science and Engineering

The School of Computer Science and Engineering at MIT-WPU is a hub of innovation and academic excellence. With a future-focused curriculum and state-of-the-art infrastructure, the school is dedicated to nurturing the next generation of computer scientists and technology leaders. Our distinguished faculty—comprising renowned academicians and experienced industry professionals—bring a wealth of practical knowledge and insight to diverse disciplines, including Software Engineering, System Architecture, Artificial Intelligence, Machine Learning, Edge Technologies, Cloud Computing, and Cybersecurity. We place strong emphasis on experiential learning, providing students with numerous opportunities to engage in real world challenges through internships, live projects, and research initiatives. At MIT-WPU, you'll gain not only cutting-edge technical expertise but also the practical skills required to thrive in today's dynamic and fast-evolving digital landscape.

Department of Computer Engineering and Technology

As digital technologies have become foundational to modern living, the field of Computer Engineering and Technology is undergoing a dynamic and accelerated expansion. The Computer Engineering and Technology extends beyond the design of machines, playing a pivotal role in shaping modern societies through innovations in smart infrastructure, digital governance, climate modeling, and educational technologies. Today, the industry seeks professionals with strong capabilities in innovation, design, development, deployment, usability, and presentation. To meet this growing demand, the Department of Computer Engineering and Technology at MIT-WPU offers industry-oriented programmes, featuring specializations in Artificial Intelligence and Data Science, Cyber Security and Forensics and Cloud Computing.

Key Highlights

- **Innovation Labs:** Access cutting-edge Innovation Labs that empower students to explore entrepreneurial potential through research.
- **100% Internships:** Guarantee hands-on experience with 100% internship opportunities, providing practical insights and industry exposure.
- **Industry Connections:** Connect with over 2000 leading companies visiting the campus for placements, opening avenues for diverse career opportunities.
- **Global Exposure:** Expand horizons through international, national, and rural immersion programmes, fostering a global perspective.
- **Renowned Faculty:** Gain insights from faculty members of international and national reputation, contributing 10% of academic instruction.
- **Tech-Driven Curriculum:** Stay at the forefront of technology with the B.Tech programmes integrating new-age tools and techniques ensuring graduates are industry-ready.

LISA PAWANKUMAR VERMA

Department of Computer Engineering & Technology

I'm Lisa Pawan Kumar Verma, a first-year student at MIT World Peace University, pursuing Computer Engineering and Technology. As a student of the Department of Computer Engineering and Technology at MIT-WPU, I can confidently say that my journey here has been transformative. The curriculum is thoughtfully designed, blending strong theoretical foundations with practical, hands-on exposure to emerging technologies such as Artificial Intelligence, Data Science, Cybersecurity, and Cloud Computing.

What I truly value is the emphasis on experiential learning through industry projects, hackathons, and research opportunities. The state-of-the-art laboratories and access to advanced software tools have helped me translate classroom knowledge into real-world applications.

Looking back, choosing MIT-WPU for my Computer Engineering degree has been one of the best decisions of my life. It has given me not only academic excellence but also the skills, exposure, and confidence to excel in
