SURAJ PANDEY
B.Sc. Economics

"I pursued my Bachelor's degree in Economics from MIT-WPU and was truly enthralled by the vast exposure I received here. Starting from the basics of classroom engagement and infrastructure, I feel the campus provides an optimum balance between the infrastructure and facilities along with lush green surroundings.

I enjoyed studying my favourite subjects like Applied Econometrics, Business Mathematics, and Statistics for Economics mainly because of the professors here. Their classroom sessions were highly engaging and they are excellent at explaining the theory with real-life business examples.

Professors here are the real advisors for internships and job opportunities and have helped a majority of students to land their career-defining internships, including me. Personal guidance and assistance reflected in the members of staff as well, who have been outstanding.

I am currently working as a Technology Analyst for India's leading marketing automation firm - Pixis, and the lessons from my professors are still with me taking me to the heights of success. To conclude my overall experience, I would definitely recommend the B.Sc (Hons.) in Economics undergraduate degree from MIT-WPU because the curriculum here is only for those who are up for a definite challenge and are willing to put in what it takes to be the best among the best."
