1200 hrs **Panel Discussion: “Smart India Hackathon – AI Focused Challenges & Inclusive Innovation”**

Innovation and entrepreneurship are at the peak in India. In order to make development a comprehensive mass movement and innovate on all fronts, a unique Open Innovation Model is to be identified. Today, AI has left no sector untouched by its innovations and novelty. Its contributions to the educational sector, especially, have been most beneficial because education forms the basis of all knowledge and progress.
