

**MIT World Peace University, Pune**  
School of Electrical Engineering

**Upcoming Events – 2020**

**Workshop : Renewable Energy: What future Holds?**

In recent times, renewable energy has been the area of global importance due to buzzwords such as Global Warming, CDM, Kyoto Protocol, etc. The penetration of renewable energy technologies in the main grid is increasing at rapid speed, making it one of the major areas of attention. The workshop aims to bring together the industrial experts in renewable energy technology and academia together to exchange the idea about what the future holds to promote research on futuristic areas of energy.

**Contents:**

- Advanced Renewable Energy Technologies
- Integration
- Storage
- Challenges and prospective solutions
- Research Opportunities

**Tentative Dates:** Second Week of December 2020

**Who can Participate:**

Faculty Members/Industry Persons/Research Scholars/PG-UG Students.

**Contact Person:** Dr. Netra Lokhande: [netra.lokhande@mitwpu.edu.in](mailto:netra.lokhande@mitwpu.edu.in)
