

TEACHING AID WORKSHOP (22/11/2019 to 23/11/2019)

Teaching Aids Workshop was planned for two days at MITWPU School of Education from 22/11/2019 to 23/11/2019. There was a wonderful response from the students of B.Ed. On the first day, Asst. Prof. Mrs. Jyoti Tekale, who was the resource person, explained the importance of teaching aids and displayed various kinds of teaching aids that would be useful for our would-be teachers. Just to mention a few for e.g. folding file, 2D file, 3D file, magic file, never ending file, and many more. On the first day participants were given the task of finalizing content, completing the cutting and sketching part of the given task. The participants were asked to think about content for the next file and come prepared with any pictures or images or drawings for the same.

On the next day, first day's activity was carried forward to give final touches and finish preparation of the folding file & 2 D file.
